The S825 is an all-position mixed service tire, engineered with a rubber compound that resists high-scrub and off-road applications. Stone ejector buttons reduce tire damage, and angled tread blocks are designed to deliver excellent wet traction.

Features & Benefits

- Interlocking lugs promote improved stability and smoother wear.
- Stone ejectors protect tire against stone drilling
- Wide footprint and unique shoulder design for improved stability.
- Specially formulated compound for improved tread life.

Applications:

- Dump Trucks
- Refuse Trucks
- Mix Concrete Trucks
- Regional Trucks
